

# Beflin's Story

## Indonesia

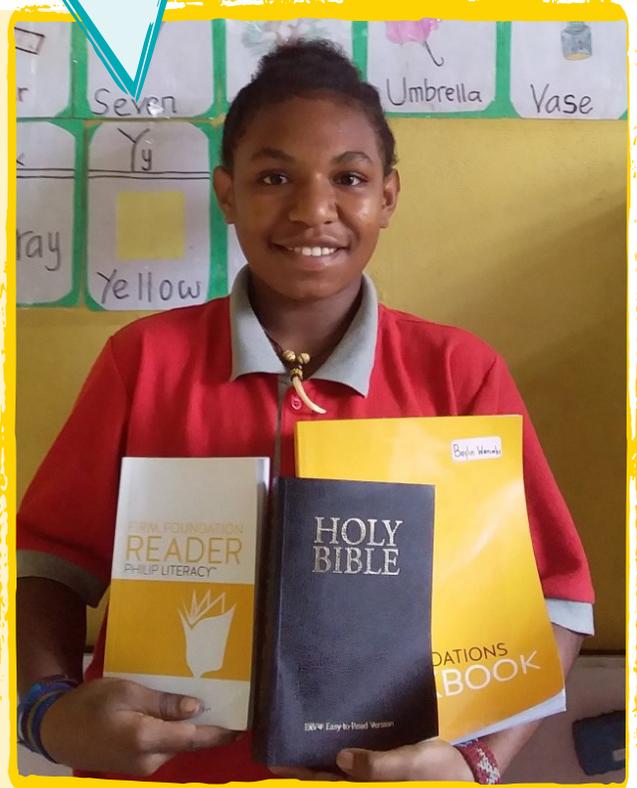

Beflin, 11, lives with her single mom in Indonesia. Her mom struggles to support them financially, but relatives help when they can. Despite the hardship, Beflin and her mom maintain their faith in God.

Beflin had to quit school because of the financial burden. But her church began a Bible League Bible-based Literacy class and she eagerly joined. It was an answered prayer.

The first book Beflin was able to read was the Gospel of John Bible study booklet. Through the program, she learned that no matter her circumstances, she has a Father who loves her and cares for her, and He has a bright plan for her future. She knows He will provide all she needs.

Beflin's optimistic view has encouraged people around her, including her teacher. She went from a quiet student to someone who speaks up in class. She is bold and smart, yet humble. Her enthusiasm to learn has created an opportunity for her to study at one of the best schools in her area.

She is thankful for God's plan in her life, and prays that Bible League can reach more people like her.
